

Otto Bock and Springlite Feet

Advantage DP2

The Advantage DP2 is Otto Bock's lightest weight dynamic pylon foot system. It is an ultra lightweight foot that offers energy return and dynamic response. It also offers some multi-axial function for greater stability on uneven terrain. This foot can be used on a variety of users in the moderate to high activity ranges.

The foot has a maximum weight limit up to 330 pounds. It is available in sizes 22-31 cm and in 3/8" and 3/4" heel heights.

The Advantage DP2 has a 60-day no risk trial period and a 3-year warranty.

Advantage LP

The Advantage LP offers high energy return in a single piece. It also offers multi-axial function for greater stability on uneven terrain as well as rotation. This foot can be used on a variety of users in the moderate activity range. The foot can also be combined with an adaptive coupler to allow for use in some symes applications.

The foot has a maximum weight limit up to 250 pounds. It is available in sizes 22-31 cm and in 1/2" heel height.

The Advantage LP has a 60-day no risk trial period and a 3-year warranty.

Lo Rider

The Lo Rider foot is a very durable foot that offers energy response and multiaxial capabilities to symes amputees of all activity levels. The foot can also be combined with an adaptive coupler to allow for use in symes applications that need even greater clearance.

The foot has a maximum weight limit up to 300 pounds for moderate activity and 220 pounds for high activity. It is available in sizes 22-31 cm and in 3/8" heel height.

The Lo Rider has a 60-day no risk trial period and a 3-year warranty.

Luxon Max

The Luxon Max has urethane material for cushioning and the strength and flexibility of carbon fiber. This foot has a separate heel and forefoot, which allows for independent motion between the toe and the heel and the natural forefoot contours provide greater stability with side-to-side movement. The Luxon™ cushioning provides reduced energy, absorbtive properties, and a more comfortable, natural gait. This foot can be used on a variety of users in the moderate to high activity ranges. The foot can also be combined with an adaptive coupler to allow for use in some symes applications.

The foot has a maximum weight limit up to 275 pounds for moderate activity and 220 pounds for high activity. It is available in sizes 22-31 cm and in 1/2" heel height.

The Luxon Max has a 60-day no risk trial period and a 3-year warranty.

Luxon Max DP®

The Luxon Max DP has urethane material for cushioning and the strength and flexibility of carbon fiber. This foot has a separate heel and forefoot, which allows for independent motion between the toe and the heel and the natural forefoot contours provide greater stability with side-to-side movement. The Luxon™ cushioning provides reduced energy, absorptive properties, and a more natural gait. The S-style pylon curve maximizes bending at the ankle providing smooth rollover with greater energy return with less effort. This foot can be used on a variety of users in the moderate to high activity ranges.

The foot has a maximum weight limit up to 300 pounds for moderate activity and 220 pounds for high activity. It is available in sizes 22-31 cm and in 3/8" heel height.

The Luxon Max DP has a 60-day no risk trial period and a 3-year warranty.

Bannockburn 2101 Waukegan Road, Suite 104 Bannockburn, IL 60015 847-444-0690	Lincoln Park/Chicago 2551 N. Clark St., Suite 200 Chicago, IL 60614 773-472-3663	Rush/Chicago 1725 W. Lincoln Hwy. (Rt. 30), Suite 1 PO Box 507 Schererville, IN 46375 219-864-9501

Luxon Journey

The Luxon Journey encompasses multiaxial capabilities with high energy return. A motion-sphere joint controls multiaxial movement and a separate heel plate controls rollover. The Luxon Journey has urethane material for cushioning and the strength and flexibility of carbon fiber. The Luxon™ cushioning provides reduced energy, absorbtive properties, and a more natural gait. A major selling point to this foot is its claim to be maintenance free. This foot can be used on a variety of users in the moderate to high activity ranges.

The foot has a maximum weight limit up to 220 pounds. It is available in sizes 23-31 cm and in 1/2" heel height.

The Luxon Journey has a 60-day no risk trial period and a 3-year warranty.

Springlite II

The Springlite II is a lightweight energy storing foot designed for low to moderately active amputees who desire a higher heel height. The foot is available in six different heel heights ranging from ¼” to 1 ¾”. The foot is custom made to the person’s weight and size. There are no weight restrictions and any foot over size 23 cm can be produced.

The Springlite II has a 60-day no risk trial period and a 3-year warranty.

1D25 Dynamic Plus Foot

The 1D25 dynamic plus foot has an S-shaped spring within the foot that offers improved rollover during gait. It provides energy return and dynamic response. It also offers some multi-axial function for greater stability on uneven terrain. This foot can be used on a variety of users in the moderate to high activity ranges.

The foot has a maximum weight limit up to 165 pounds (sizes 22-25 cm) and 220 pounds (sizes 26-38 cm). It is available in a 3/8” heel height.
